Communication and Interaction

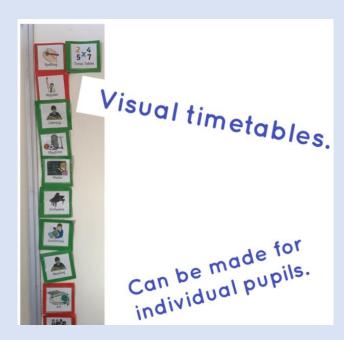

Children may:

- have difficulties with producing or responding to receptive and/or expressive language.
- have difficulties with pronunciation they may not be clear or fluent.
- have a limited vocabulary, struggle to respond verbally and have difficulty following instructions.
- find social situations and engaging with peers difficult, such as turntaking during conversations or appropriate level of physical contact during play

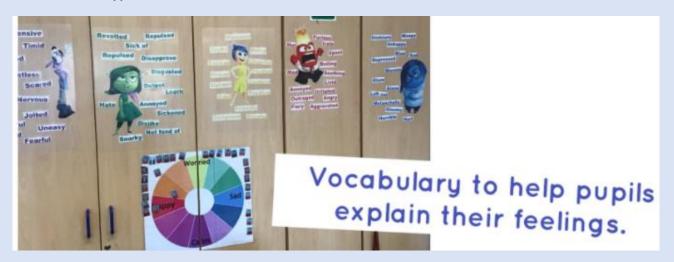

Children may be diagnosed with a specific condition such as Autism Spectrum Disorder (ASD) or Asperger's.
